----- *Recognition Machine; Workshop II*

*La reconnaissance faciale, une technologie menaçante?
Comment échapper à cette reconnaissance faciale, une
technologie qui prend de plus en plus d'ampleur dans le
monde contemporain.*

*Utilisée à des fins juridiques, policières, sécuritaires...
Pouvons-nous passer à travers les mailles du filet de
cette surveillance camouflée par le système de reconnais-
sance faciale qui pousse (certainement) au vice?
L'anonymat serait donc impossible dans un futur
proche?*

*Devons-nous faire appel au grimage, au maquillage, au
textile, aux modifications corporelles, voire même à la
chirurgie esthétique? Tromper, se modifier, frauder,
dissimuler pour esquiver, détourner.*

*Nous avons tenter de jouer des tours à la recognition
machine avec les moyens du bords.*
